

Sierra Wireless AirLink® Dome Mag Mount Adaptor

AirLink® Antenna: Dome Mag Mount Adaptor

For use with the Dome Antenna range of low profile MiMo antennas, the Dome Mag Mount Adaptor provides a magnetic mount solution for antenna trials and drive-testing.

Using three heavy duty magnets fitted to a stainless steel metal plate, this is a very easy, simple and quick solution that can be fitted anywhere on the vehicle to evaluate the antennas performance without drilling any holes.

	Specification
PART NO.	6001113
MECHANICAL DATA	
Clearance	21mm (0.82")
Diameter	170mm (6.7")
Material	Stainless Steel
Colour	Black Powder Coat
