by Ookla®

Wi-Fi intelligence that drives performance

Design, optimize, and troubleshoot networks with new simplified SaaS licensing

Ekahau Plan

Design and optimize wireless networks for seamless connectivity

Ekahau Measure Pro

Survey and troubleshoot Wi-Fi networks with unmatched precision

Ekahau Software Suite

Complete Wi-Fi lifecycle management for maximum network performance and ROI

Ekahau Sidekick 2

The fastest, most precise Wi-Fi testing and measurement device

DISCLAIMER: SaaS pilot program will begin availability only in certain regions on July 1, 2025: China, India, Latin America, and DACH (Germany, Austria, Switzerland)

Ekahau Plan

Design and optimize wireless networks for seamless connectivity

What's included:

- **Ekahau AI Pro Online**
- **Ekahau Optimizer**
- **Ekahau Insights**
- **API Integrations**

Design Wi-Fi with Unmatched Accuracy

Ekahau AI Pro Online enables IT teams to create predictive wireless network designs, simulating Wi-Fi signal propagation, predicting coverage patterns, and identifying potential interference issues while recommending optimal access point placement.

Extend Network Lifespan

Ekahau Optimizer provides step-by-step action plans using real-world measurements to maintain peak network efficiency, helping organizations maximize their existing infrastructure investment.

Plan High-ROI Strategic Redesigns

Test different upgrade scenarios without physical installation, accurately model RF environments using real-world measurements, and visualize the impact of new access points before deployment - ensuring every network investment delivers maximum value.

Who is it for:
Network designers, planners, and architects requiring professional Wi-Fi design and optimization capabilities without on-site survey needs.

What it includes:
Cloud-based wireless network design and optimization tools including Ekahau AI Pro Online, Ekahau Optimizer, Ekahau Insights, and access point manufacturer API integrations.

*Does not include Wi-Fi measurement capabilities. Ekahau Sidekick or Sidekick 2 data is required for partial/full functionality. One user per license.

DISCLAIMER: SaaS pilot program will begin availability only in certain regions on July 1, 2025: China, India, Latin America, and DACH (Germany, Austria, Switzerland)

ekahau by OOKLA

Ekahau Measure Pro

*Ekahau Sidekick 2 Required

Survey and troubleshoot Wi-Fi networks with unmatched precision

What's included:

Ekahau Survey

Ekahau Analyzer

Capture Comprehensive Network Data

Leverage Sidekick 2 measurements to gain comprehensive visibility across multiple frequency bands (2.4 GHz, 5 GHz, and 6 GHz) through intuitive data collection modes that make professional-grade Wi-Fi surveying accessible to anyone.

Resolve Wi-Fi Issues Fast

Drastically reduce troubleshooting time, ensure minimal downtime, and enable uninterrupted business operations with expert-level troubleshooting tools in the palm of your hand. Display RF interference in real-time with the Sidekick 2's high-resolution spectrum analyzer.

Pinpoint Security Vulnerabilities

Ekahau's security visualizations clearly highlight potential entry points for attackers like rogue access points and weak encryption, with specific recommendations to fortify your wireless security posture before vulnerabilities can be exploited.

Who is it for:
Field technicians and on-site IT staff who need powerful, accurate, and intuitive data collection and troubleshooting capabilities.

What it includes:
Ekahau Survey application, Ekahau Analyzer application, cloud project sync and sharing, and software/firmware updates.

*Requires Ekahau Sidekick for partial functionality or Sidekick 2 for full functionality. One user per license. Detailed review and advanced analysis of collected data requires a user with Ekahau Plan or AI Pro license.

Ekahau Software Suite

Complete Wi-Fi lifecycle management for maximum network performance and ROI

Includes everything from Ekahau Plan and Ekahau Measure Pro:

Ekahau AI Pro Online **API Integrations**
Ekahau Optimizer **Ekahau Survey**
Ekahau Insights **Ekahau Analyzer**

Design and Optimize High-Performance Networks

Create high-accuracy wireless network designs simulating real-world conditions. Continuously optimize network performance and extend infrastructure lifespan with actionable, data-driven insights.

Troubleshoot Networks and Collect Wi-Fi Data

Survey and troubleshoot Wi-Fi networks with unmatched precision, with comprehensive visibility across multiple frequency bands, drastically reduced troubleshooting time, and potential security vulnerabilities identified.

Conquer the Entire Wi-Fi Lifecycle

Access a comprehensive, integrated suite of tools to seamlessly manage every stage of your wireless network—including predictive design, network validation, optimization, troubleshooting and strategic redesigns.

Who is it for:
Networking professionals who need comprehensive Wi-Fi design, optimization, data collection, and troubleshooting capabilities in a single license.

What it includes:
All features from both Ekahau Plan and Ekahau Measure Pro – complete access to Ekahau AI Pro Online, Optimizer, Insights, Survey, Analyzer, cloud sync, and API integrations.

*One user per license – users cannot split an Ekahau Software Suite license. Requires Ekahau Sidekick or Sidekick 2 for data collection. Ekahau Sidekick 2 is required for full functionality.

Ekahau Sidekick 2

Capture the clearest picture of your Wi-Fi performance with the world's fastest, most precise Wi-Fi measurement and troubleshooting device.

Easily Collect Wi-Fi Data

A simple walk with the Sidekick 2 is all you need to capture accurate network data and troubleshoot network problems across 2.4, 5, and 6 GHz Wi-Fi.

Get Data-Driven Intelligence

Automatically detect configuration issues hurting your network performance or security, and save time with easy, step-by-step action plans based on Sidekick 2 survey data.

Transform Network Design

With Sidekick 2 survey data and our advanced AI propagation model as the foundation for your designs, you get the most accurate network visualizations possible, no wall drawing required.

Precision-Engineered for Reliable Data

- The Sidekick 2 delivers unmatched measurement accuracy and scanning speed through carefully engineered precision components
- 4 enterprise-grade tri-band Wi-Fi radios capable of scanning the full Wi-Fi spectrum in under 2 seconds
- 9 custom wideband antennas positioned for optimum omnidirectional measurement consistency, regardless of access point direction
- Patented internal spectrum analyzer that delivers 50 sweeps/second performance from 2,400–7,125 MHz, identifying sources of interference that can negatively impact your network performance
- Battery that powers more than a full day of onsite surveying, and fast charging that can add an extra 4 hours of use with just 1 hour of charging

SaaS vs. Perpetual

Which license is right for you?

	Ekahau Plan	Ekahau Measure Pro	Ekahau Software Suite	Ekahau AI Pro Perpetual License and Ekahau Connect Subscription
Wi-Fi Design	✓		✓	✓
Network Optimization	✓		✓	✓
Insights Performance Analytics	✓		✓	✓
Survey Data Collection		✓	✓	✓
Wi-Fi Troubleshooting		✓	✓	✓
Access to Offline Non-Cloud-Based Tools				✓
Software/Firmware Updates and Support	✓	✓	✓	✓

Frequently Asked Questions

What are some of the benefits of SaaS?
Key advantages include lower upfront costs, only paying for the functionality you need, and a possibly easier purchasing approval process via operational expenses (OpEx) versus capital expenditures (CapEx).

Is this available for existing customers or only new customers?
Both new and existing customers can purchase SaaS model licenses.

What happens to my data if my subscription lapses?
If your subscription expires, you'll immediately lose access to your projects and account. However, we retain your data for 90 days after expiration, giving you time to renew and restore full access. After 90 days, all data is permanently deleted and cannot be recovered.

How do I upgrade from Plan or Measure Pro to Software Suite?
There will be a fixed upgrade fee that we will introduce in the near future.

Can I split an Ekahau Software Suite license between two users?
No, Software Suite licenses cannot be shared between users. Each user requires their own individual license (Ekahau Plan, Measure, or Software Suite).

Key Use Cases

Education

Arm central IT teams with Ekahau Software Suite for full functionality, and enable student technicians with Measure Pro for data collection, troubleshooting, and for divide and conquer large campus connectivity projects.

Hospitality

Outfit centralized planning teams with Ekahau Plan for network design-only, or Software Suite for comprehensive network lifecycle management. Empower local staff with Measure Pro to verify guest connectivity, troubleshoot issues, and prevent negative guest reviews.

Manufacturing

Equip network engineers with Ekahau Plan for optimal factory design or Ekahau Software Suite for a complete solution, and provide floor technicians with Measure Pro to validate connectivity across warehouse zones, IoT systems, and automation infrastructure.

Healthcare

Provide network architects with Ekahau Software Suite for mission-critical network planning, optimization, and troubleshooting. Equip support personnel with Measure Pro to monitor critical areas, validate patient care systems, and maintain regulatory compliance documentation.

Real Estate Developers

Equip corporate real estate developers with Ekahau Software Suite or Ekahau Plan for comprehensive building infrastructure planning. Provide on-site technicians with Measure Pro licenses to validate Wi-Fi coverage during development, ensuring tenant-ready connectivity in office and multi-use spaces.

Public Venues

Supply central design teams with Ekahau Plan or Software Suite, and use Measure Pro to enable multiple teammates to collaborate on large-scale deployments with cloud synchronization for centralized management.
